

ViClean-IH⁺

ViClean-IH⁺

Endless hygiene for daily needs and enjoyment of life becomes...

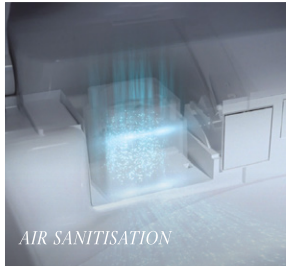

There is no end to 'purification' and enjoying good health - this may be the common goal of the world in this era. Villeroy & Boch combines scientific design and excellent quality from Germany to create all-round, full-time, and whole-family smart hygiene solutions. The ViClean-IH+ serves as a bridge between Villeroy & Boch's 275-year history and the development of the current era, encompasses brand design vocabulary, technological advantages, technological exploration, and aesthetic persistence. It draws inspiration and explores with accumulated knowledge to cater to customers with different needs. Consumers have opened up a new 'clean' world for bathroom products.

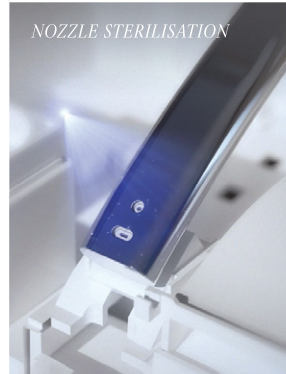

POWER JET FLUSHING

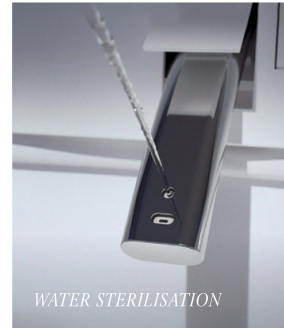

Provides powerful flush ensuring excellent flushing performance for even less water.

Innovative plasma generator emits ions that inhibit the growth of bacteria inside the bowl, resulting in an antibacterial rate exceeding 90%.

The 304 stainless steel nozzle is automatically sanitised with UVC providing fast and safe sterilisation, with a rate exceeding 90%.

UVC sanitisation on spray water and nozzle cleansing water with sterilisation rate of 90%

Soft ambient lighting transforms your night, offering smart guidance. Flashing ambient light indicates nozzle sanitisation, providing a comforting user experience.
